Lesson-plan delivery audit

WHAT C1 ACTUALLY RECEIVED, CALL BY CALL

C1 is the condition that adds the lesson plan's design to C0's curriculum objective. One core step is one independent model call, so a key that the plan had nothing for is simply absent from that call's prompt — and once rendered, absent and withheld look the same. This pack reports, per call, which of the six keys arrived and what in the plan explains each miss.

✓ = the key reached this call · — = it did not

t3-w04 · Three Dimensional Shapes

Three dimensional figures: properties of cubes, cuboids, pyramids and cones · Third Term, week 4 · 2 core steps = 2 C1 calls · 1 evaluation step

Call	Step	entry behaviour	instructional materials	current step	instructional events	student tasks	assessment points
1	step-t3w04-02	✓	✓	✓	✓	—	✓
2	step-t3w04-03	✓	✓	✓	✓	—	✓

Call 1 · step-t3w04-02 — Step II — properties of cubes and cuboids

lo-t3w04-01: Identify the properties of cube and cuboids

student_tasks did not arrive — no block on this step is typed practice (3x explanation), and her Student Activity is 'take notes in their notebooks', which is reception.

Call 2 · step-t3w04-03 — Step III — properties of pyramids and cones

lo-t3w04-02: Identify the properties of pyramids and cones

student_tasks did not arrive — no block on this step is typed practice (3x explanation), and her Student Activity is 'take them down, as in Step II', which is reception.
